RAMESHKUMAR RAKKAPPAN
FULL STACK DEVELOPER

Experienced Full-Stack Developer with expertise in building storefronts, POS systems, government websites, and e-commerce solutions. Strong skills in software architecture, API development, and database management. Proficient in Agile methodologies and leading cross-functional teams to deliver high-quality projects on time.

PROFESSIONAL EXPERIENCE

Programmer
KlioTech LLP, Chennai   Feb 2024 - Present

At **KlioTech LLP**, I worked as a **Team Lead** managing a team of 6 members while focusing on **Retail Software POS** and **e-commerce** solutions. I contributed to the development of scalable, real-time systems, with modules for **Multitenancy**, **SaaS Automatic Triggers**, **Product Taxes**, **Coupons**, and **Order Management**. Additionally, I worked with **Django**, **Angular**, **CakePHP**, **Solr**, **Docker**, **AWS**, **JIRA**, **RabbitMQ**, and **Node.js**, ensuring smooth project execution and system optimization.

Junior PHP Developer
AEL Data Services LLP, Chennai   Aug 2022 – Feb 2024

At AEL Data Services, I designed and developed user-friendly web applications using **CakePHP**, **React.js**, **jQuery**, and **Python**. I contributed to building scalable, real-time, and secure systems. My responsibilities included debugging, bug fixing, and testing for smooth performance. I also implemented key modules such as **recommendation systems**, **profile management**, **wallet**, and **scratch cards**. The applications were built on cloud infrastructure for enhanced scalability and security.

Project Engineer
National Informatics Center, TNSC, Chennai   Nov 2020 – Aug 2022

Worked on the **DTP, PWD** website and **VP** projects, focusing on tax calculation, collection, and reporting systems. I contributed to building highly available, scalable, real-time, and secure applications. My responsibilities included debugging, bug fixing, testing, and ensuring error-free performance. The projects were developed using **PostgreSQL** and **PDO-PHP**, ensuring scalability and security.

Junior PHP Developer
AEL Data Services LLP, Chennai   May 2020 – Nov 2020

I developed scalable, real-time web applications using **PHP7**, **React.js**, and **Python**. I focused on debugging, testing, and ensuring high performance and security. My contributions also included enhancing the scalability and overall security of the applications.

PHP Developer
Spiro Solution Pvt. Ltd, Chennai   May 2018 – May 2020

Developed web applications for clients in e-commerce, Gym, Education and hospitals using PHP 7, Laravel, jQuery, and MySQL. Implemented responsive UIs with HTML5, CSS3, JavaScript, AngularJS, and Bootstrap. Led debugging, testing, and error handling. Trained team members and clients on system.
